Overview

High-Performance 230 HP Tractor

This 230 HP wheeled tractor features advanced technology integrated into a robust chassis, offering high power density and stability for demanding agricultural tasks. With an F40+R40 gear transmission and intelligent communication between the engine and transmission, it ensures fuel efficiency and optimized performance. The operator environment is designed for comfort, featuring a panoramic cab with air conditioning, air suspension seating, and comprehensive digital monitoring systems.

Technical Specifications

Engine Features	Six-cylinder, High-pressure common rail, Turbocharged
Drivetrain System	4x4 Wheels
Transmission	40 Forward + 40 Reverse

Dimensions & Mobility

External Dimensions	5715 x 2820 x 3465 mm
Wheelbase	3085 mm
Min. Turning Radius	6.8 m
Minimum Clearance	380 mm

Cabin Features

Comfort & Technology

- Panoramic cab view
- Digital parameter display
- Reversing camera system
- Integrated MP3 entertainment
- Positive pressure air conditioning
- Air suspension seat
