

2300W Circular Saw with 235mm Blade

This 2300W circular saw features a 235mm blade for powerful and efficient cutting. It is designed for both professional and DIY use, offering precision and durability.

Overview

High-Performance Cutting Solution

This 2300W circular saw is engineered for heavy-duty cutting tasks, featuring a substantial 235mm blade for increased depth and efficiency. Designed for both professional and DIY applications, it provides the power and precision needed to cut through wood, plastic, and other materials. The ergonomic handle and integrated blade guard ensure comfortable and safe operation during extended use.

Safety & Ergonomics

- Integrated blade guard
- Ergonomic handle design
- Precision depth adjustment

Suitable Materials

Wood, Plastic, Composite Materials

Performance

Key Performance Metrics

2300 W

Input Power

3300 RPM

No Load Speed

Cutting Capabilities

Cutting Capacity

Angle	Max Depth
90°	80mm
45°	70mm

Technical Specifications

Blade Diameter	235 mm
Operating Voltage	220-240V
Frequency	50/60Hz

Logistics

Packaging	Color box
