

2300W Gasoline Generator with LPG Engine

This gasoline generator provides a rated output of 2300W at 220V and 50Hz. It delivers a peak output of 2500W for 10 seconds to start larger equipment.

Product Overview

Reliable Power Solution

This 2300W generator offers versatile dual-fuel capability, featuring an efficient LPG engine designed for consistent performance. Engineered for both residential and commercial applications, it provides stable power output with integrated safety features like overload protection. Its compact, wheeled design ensures portability, making it an ideal choice for emergency backup, construction sites, and outdoor events.

Performance Metrics

Rated Power

2300 W Rated Power	2500 W Max Power
------------------------------	----------------------------

AC Output	220V (11.4A max / 10.4A rated) @ 50Hz
DC Output	100W 12V 8.3A

Engine Specifications

Engine Model	GX200LPG
Displacement	196 cc
Starting System	Recoil

Operational Details

Run Time per Tank

Load Level	Run Time
Rated Load	7 hrs.
1/2 Load	11 hrs.

Noise Level	68 dB(A)
