

# 23A 12V Alkaline Battery

This is a 23A 12V alkaline battery designed for various electronic devices. It is mercury-free.

### ADDITIONAL IMAGES

## Product Overview

### High-Performance Alkaline Batteries

This range of alkaline batteries offers reliable power solutions for a variety of electronic devices. Designed with a focus on consistent performance, these batteries are available in multiple standard sizes including 23A, 27A, and button cell variants. Each unit is engineered to deliver stable voltage and capacity, ensuring your equipment operates efficiently.

## Technical Specifications

### 23A Battery Performance

**12 V**

Nominal Voltage

**50 mAh**

Nominal Capacity

### 27A Battery Performance

**12 V**

Nominal Voltage

**20 mAh**

Nominal Capacity

### Button Cell Specifications

Model	Voltage	Capacity
AG10/LR1130/LR54	1.5V	75mAh
AG13/LR44	1.5V	150mAh

## Logistics and Packaging

### Packaging Details

Model	Pcs/Pack	Pcs/Ctn	Gross Weight (kg)	Meas (cbm)
AG10	50	20000	25.5	0.0269
AG13	50	6000	12.7	0.005
23A	50	2000	16.6	0.0112
27A	20	2000	9.6	0.0081
