Overview

Professional 46-Bottle Wine Storage Solution

This 24-inch wine refrigerator offers a sophisticated storage solution for up to 46 bottles, featuring a versatile design suitable for both built-in and freestanding installations. The unit utilizes a powerful compressor-based cooling system with fan circulation to ensure consistent temperatures without frost buildup. With its elegant stainless steel frame, tempered double-pane glass, and beech wood roll-out racks, it provides a premium display and preservation environment for any professional or residential setting.
