

24-Inch High-Velocity Wall-Mounted Fan

This high-velocity wall-mounted fan is designed for industrial and commercial applications. Its 24-inch blade and powerful motor deliver high-speed air circulation, with adjustable tilt and swivel for targeted cooling.

Overview

Industrial-Grade Air Circulation

The 24-Inch High-Velocity Wall-Mounted Fan is engineered for demanding industrial and commercial environments such as warehouses, factories, and workshops. Featuring a robust 24-inch diameter blade, it delivers powerful, high-speed air circulation to effectively cool large spaces. Its space-saving wall-mount design, combined with adjustable tilt and swivel functionality, allows for precise, targeted airflow exactly where it is needed most.

Technical Specifications

Blade Diameter	24 inches
Mounting Type	Wall-Mounted

Features

Key Features	High-Velocity, Adjustable Tilt, Swivel Function, Space-Saving Design
--------------	--

Safety & Durability

Safety Features

- Sturdy metal grill
- Durable blade construction
- Industrial-grade housing

Applications

Ideal For

Warehouses • Factories • Workshops • Commercial Spaces
