Product Overview

Professional Dual-Zone Wine Preservation

This 24-inch under-counter wine cooler is engineered for professional-grade storage, featuring a dual-zone thermostat to maintain optimal temperatures for both red and white wines. The advanced compressor technology ensures low vibration and noise levels, protecting delicate wine sediments and preserving peak flavor profiles. With its versatile design, it can be seamlessly integrated as a built-in unit or used as a standalone appliance in any upscale kitchen or entertainment area.
