

24 Liter Thermoelectric Cooler and Warmer

This thermoelectric device functions as both a cooler and warmer with a 24-liter capacity. It is capable of cooling to 18-20°C below ambient temperature and heating to 65±5°C.

Overview

Versatile Thermal Control

This 24-liter thermoelectric unit offers both cooling and warming capabilities, making it a highly versatile solution for home, office, and travel environments. Designed for flexibility, it supports multiple power sources including AC and DC, ensuring functionality in cars, campsites, or indoor settings. With intuitive LED indicators and precise thermostat control, it provides a reliable way to keep beverages and food at the desired temperature.

Performance

Cooling Capacity

20 °C

Cooling Below Ambient

| | |
|-------------------|-------|
| Heating Capacity | 65 °C |
| Power Consumption | 65 W |

Technical Details

| | |
|----------------------|--------------------------|
| Capacity | 24 L |
| Power Supply Options | AC 220V, AC 110V, DC 12V |

Model Comparison

Model Specifications

| Model | Power Type | Function |
|--------|------------|-------------------|
| GT-23A | AC/DC | Cooling & Warming |
| GT-23B | DC Only | Cooling & Warming |
| GT-23C | DC Only | Cooling Only |

Logistics

Container Load Capacity

- 510 pcs per 20' container
- 1050 pcs per 40' container
