

24-Spool Thread Rack

This metal thread stand holds up to 24 spools of thread for efficient organization. Its multi-tiered design accommodates various spool sizes, prevents tangling, and ensures smooth thread feeding for sewing, embroidery, and other textile applications.

Product Overview

Industrial-Grade Organization

This 24-spool thread rack is engineered for high-efficiency textile environments, offering a robust multi-tiered structure for organized spool storage. Constructed from durable metal, the stand ensures maximum stability and longevity for demanding industrial or crafting workspaces. Its intelligent design facilitates seamless thread feeding while preventing tangling, making it an essential tool for professional sewing and embroidery applications.

Technical Specifications

Spool Capacity	24 spools
Material Composition	Durable Metal
Key Features	Multi-tiered design, Anti-tangle feeding, Industrial grade, Stable base

Applications

Suitable Applications

- Professional Sewing
- Embroidery
- Textile Manufacturing
- Professional Crafting
