

2.4GHz Omnidirectional Indoor Antenna

This omnidirectional indoor antenna is designed for reliable wireless communication within indoor environments. It provides uniform coverage in all directions, ensuring seamless connectivity for various wireless devices.

Product Overview

Reliable Indoor Connectivity

This 2.4GHz omnidirectional indoor antenna is engineered to provide uniform signal coverage across indoor environments, ensuring consistent connectivity for wireless devices. Its compact design allows for discreet installation in homes, offices, or retail spaces. Built for durability, it offers robust performance and reliable signal enhancement for your network infrastructure.

Electrical Specifications

Frequency Range	2400-2483 MHz
Gain	3 dBi
VSWR	1.5
Polarization	Vertical or Horizontal
Impedance	50 Ω
Maximum Input Power	50 W
Connector	N Female

Mechanical Specifications

Cable Length	30 cm
Cable Type	RG58U
Dimensions	1165x 105 mm
Weight	350 g

Environmental

Operating Temperature	-40°C to +80°C
-----------------------	----------------

Certifications

Compliance
CE • ISO 9001
