

24L Portable Car Refrigerator

This 24L mini fridge is designed for portable refrigeration in vehicles. Its compact design allows for easy storage and maintains cool temperatures for food and drinks during travel.

Product Overview

Portable Cooling and Heating Solution

This 24-liter portable refrigerator offers a versatile solution for keeping food and beverages at optimal temperatures during travel. Utilizing advanced thermoelectric technology, it provides both cooling and heating capabilities, making it suitable for road trips, camping, and outdoor excursions. The unit is designed for convenience, featuring dual power compatibility for use in vehicles or standard AC outlets.

Technical Specifications

Power Consumption

40 W Min Power	60 W Max Power
--------------------------	--------------------------

Temperature Performance

- Cooling: 18 to 25°C below ambient
- Heating: 50 to 60°C (thermostat controlled)

Capacity	24 L
Can Capacity	31 cans

Physical Attributes

Unit Dimensions (DxWxH)	30 x 40 x 46 cm
Net Weight	7 kg
Material	Polypropylene (PP)

Logistics & Compatibility

Certifications

CE • RoHS • REACH • LFGB • E-MARK

Container Loading Reference

Container Type	Capacity (PCS)
20' GP	432
40' GP	895
40' HQ	1045

Power Options	12V DC, 110V AC, 230V AC
