Product Overview

Heavy-Duty Starting Solution

This high-performance starter motor is engineered for reliable ignition in heavy-duty engines, including the WD615 series. Designed for durability in demanding industrial and automotive environments, it features a robust solenoid and precision-engineered internal components. Its corrosion-resistant coating ensures extended lifespan and consistent operation even in harsh working conditions.

Technical Specifications

Voltage	24 V
Power Output	7.5 kW
Model Number	QDJ2825
Reference Number	VG1560090001

Compatibility

Compatible Engine Series	WD615
--------------------------	-------

Quality & Support

Warranty Coverage	6-12 Months
-------------------	-------------
