

2.5 HP Oil-Free Air Compressor

This 2.5 HP oil-free air compressor is designed for applications requiring compressed air. It features a twin-cylinder pump, delivering high performance with minimal noise.

Overview

High-Performance Oil-Free Compression

This 2.5HP oil-free air compressor is engineered for professional and DIY environments requiring reliable, clean compressed air. Its twin-cylinder pump design delivers high performance while maintaining minimal noise levels, making it suitable for noise-sensitive workspaces. The oil-free mechanism eliminates the need for frequent lubrication, significantly reducing maintenance requirements and extending the unit's operational lifespan.

Technical Specifications

Power Rating

2.5 HP

Horsepower

Pump Design

Twin-cylinder oil-free

Features & Control

Control Interface

- Dual pressure gauges
- Adjustable pressure regulator

Maintenance Level

Oil-Free • Low Maintenance

Portability

Integrated handle, Wheeled base, Compact design
