

# 25-Liter Portable 12V Car Refrigerator

This 25-liter car refrigerator provides cooling and warming capabilities for on-the-go use. It operates on a 12V power supply and can cool to 18°C-22°C below ambient temperature and warm up to +65°C.

## ADDITIONAL IMAGES

## Product Overview

### Portable Cooling and Heating Solution

This 25-liter portable refrigerator is designed for versatility, offering both cooling and heating capabilities for road trips, camping, and daily travel. It features advanced PU foaming insulation to maintain internal temperatures effectively, operating at 12V for vehicle use or AC power for home applications. Its compact design and low-noise operation make it an ideal companion for keeping food and beverages at the perfect temperature on the go.

## Performance Specifications

### Cooling Performance

**18 °C**

Cooling Delta (Min)

**22 °C**

Cooling Delta (Max)

### Heating Temperature

65 °C

## Technical Details

Capacity	25 L
Power Compatibility	12V DC, AC
Insulation Material	PU Foaming

## Usage & Applications

### Ideal For

- Camping
- Road Trips
- Vehicle Use
- Household Use
