

25-Port RJ45 Voice Patch Panel

This 25-port voice patch panel is a 1U rack-mountable solution for organizing voice communication lines. It features RJ45 connectors on the front for patching and termination blocks on the rear for connecting to voice cabling infrastructure.

Overview

Professional Voice Connectivity

This 25-Port RJ45 Voice Patch Panel is a high-density, 1U rack-mountable solution engineered for efficient organization of voice communication infrastructure. Designed for reliability, it features robust construction and standard RJ45 connectivity to ensure stable performance in demanding telecommunication environments. The panel simplifies cable management with clear port identification, making it an ideal choice for professional networking setups.

Physical Specifications

Plug Life Cycle	750 Times
Compatible Wiring Gauge	22 to 26 AWG Solid

Environmental Conditions

Operating Temperature	-10°C to 60°C
Storage Temperature	-40°C to 68°C
Relative Humidity	10% - 90%

Electrical Performance

Key Electrical Metrics

500 m Ω

Insulation Resistance

1000 VAC

Pressure Resistance

1.5 Amps

Current Rating

20 m Ω

Contact Resistance
