

2.5 Ton Container Handling Forklift Truck

This 2.5 ton H-type forklift truck is designed for efficient container handling. It features a robust chassis and a high-visibility mast for safe operation.

Product Overview

Designed for Container Efficiency

The CPCD25HF is a specialized 2.5-ton H-type forklift truck engineered specifically for efficient container handling operations. Its robust chassis and powerful engine provide the necessary torque for demanding industrial environments, while the compact design ensures superior maneuverability in confined spaces. With an ergonomic operator compartment and high-visibility mast, this forklift prioritizes both driver productivity and operational safety.
