

250cc On/Off-Road Motorcycle

This motorcycle is equipped with a 250cc engine, suitable for both on and off-road environments. It features telescopic front forks, a mono-shock rear suspension, and a 10-liter fuel tank.

Overview

Versatile On/Off-Road Performance

This 250cc motorcycle is engineered for dual-sport versatility, excelling on both paved roads and rugged terrain. Featuring a robust engine and a specialized suspension system, it provides a stable and comfortable riding experience for various environments. The inclusion of a digital instrument cluster and reliable disc braking systems ensures both safety and ease of monitoring for the rider.
