

# 250cc Touring Motorcycle

This tour sport motorcycle features a 250cc engine and is designed for both on-road and light off-road adventures. It features a comfortable riding position, a protective windscreen, and ample torque for touring.

## Overview

### Touring Performance

This 250cc touring motorcycle is engineered for versatility, offering a balance of on-road comfort and light off-road capability. With a reliable four-stroke, liquid-cooled engine and a comfortable riding geometry, it is built to handle long-distance touring with ease. The inclusion of modern features like electronic fuel injection and adjustable rear suspension ensures a smooth and controlled riding experience for professional riders.
