

250W Monocrystalline Solar Panel Module

This high-efficiency 250W monocrystalline solar panel module is designed for superior performance and reliability. Its robust construction can withstand harsh environmental conditions, ensuring long-term durability.

Product Overview

High-Efficiency Energy Solution

This 250W monocrystalline solar panel module is engineered for superior performance and reliable power generation. Designed for both residential and commercial applications, it features advanced cell technology that maximizes sunlight absorption. Its robust construction ensures long-term durability, making it suitable for various on-grid and off-grid solar power systems.

Technical Specifications

Solar Cell Efficiency

18 % Min Efficiency	21 % Max Efficiency
-------------------------------	-------------------------------

Rated Power Output: 250 W

Cell Type: Monocrystalline

Applications

Suitable Applications: Residential, Commercial, Industrial, On-grid, Off-grid
