Overview

High-Performance Charging Solution

This C1200 series charger is engineered for reliable and efficient power management for 6S Li-ion battery systems. Housed in a durable aluminium alloy shell, it is built to withstand demanding environments while providing consistent output. Ideal for a wide range of electric mobility and cleaning equipment, this unit ensures safety and performance for professional-grade applications.

Technical Specifications

Output Power

756 W
Power

25.2 V
Voltage

30 A
Current

Input Voltage Range 110-132VAC / 200-264VAC

Battery Compatibility Li-ion, 6S

Physical Dimensions

Dimensions & Weight

Attribute	Value
Size	264 x 120 x 89 mm
Net Weight	2.1 kg

Housing Material Aluminium Alloy

Applications & Compliance

Supported Applications

- Electric Bikes
- Electric Motorcycles
- Electric Scooters
- Cleaning Equipment
- Golf Carts

Certifications

CE

Warranty Period

12 months
