

## 2.5kW Gasoline Generator Set

This gasoline generator set delivers 2.5kW of power. It features a 171cc brushless OHV engine with an oil warning system, AC output, and voltage meter.

### Overview

#### Reliable Power Generation

This 2.5kW gasoline generator set is designed to provide dependable electrical power for various applications. Featuring a robust single-cylinder 4-stroke engine with a 196cc displacement, it offers a reliable power output for essential needs. With a 15-liter fuel capacity and a user-friendly recoil start system, this generator is built for convenience and consistent performance in demanding environments.

### Performance Metrics

#### Rated Power
