

2.5kW Portable Gasoline Generator

This 2.5kW gasoline generator delivers a rated output of 2500 watts with a peak output of 2800 watts for starting larger equipment. It features a forced air-cooled, 4-stroke gasoline engine and provides up to 11 hours of run time per tank full.

Product Overview

Reliable Portable Power

This 2.5kW portable gasoline generator is engineered for consistent performance in demanding environments like construction sites and outdoor events. Powered by a robust 196cc engine, it provides a reliable 2500W of rated power with a generous 15L fuel capacity for extended operation. Designed with portability in mind, this unit balances power output with manageable weight, making it an ideal solution for emergency backup or remote site power needs.
