

2.5L Automatic Water Bottling Machine

This automatic bottling machine is designed for filling and sealing 2.5L water bottles. It features stainless steel construction and advanced technology for precise filling and capping.

Overview

High-Efficiency Bottling Solution

This automatic PET bottle mineral water filling machine is engineered for high-volume production environments. Constructed with durable stainless steel, it ensures optimal hygiene standards and long-term reliability. The system integrates advanced technology for precise filling and capping, guaranteeing consistent product quality across every batch.

Technical Specifications

| | |
|------------------------|-----------------------|
| Target Bottle Capacity | 2.5 L |
| Construction Material | Stainless Steel |
| Automation Level | Automatic |
| Application | Mineral Water Filling |

Certifications

| | |
|-----------------------------|----------------------|
| Compliance & Certifications | CE, ISO, BUREAU, COC |
|-----------------------------|----------------------|

Key Features

Operational Features

- Precise automated filling technology
- Integrated capping system
- User-friendly control panel
- High-volume production capability
