

# 25mm Ceramic Hair Straightener with Swivel Cord

This hair straightener is equipped with a PTC heating element and 25x90mm ceramic plate. It features a lock function, LED indicator, and a 360-degree swivel cord.

## Product Overview

### Professional Ceramic Hair Straightener

The HS-707B hair straightener is engineered with ceramic-coated plates designed for smooth gliding and even heat distribution, which helps minimize hair damage during styling. With variable temperature settings and rapid heat-up technology, it offers efficient performance tailored to various hair types. Its slim, ergonomic design, combined with a tangle-free swivel cord and safety shut-off feature, ensures both ease of use and peace of mind for professional or personal styling.
