Overview

High-Performance Lithium-Ion Forklift

This 2.5-ton electric forklift is engineered for efficient, eco-friendly material handling in both indoor and outdoor environments. Powered by a long-lasting lithium-ion battery, it offers maintenance-free operation and high energy efficiency to reduce downtime. The truck features a stable, tail-free design and ergonomic controls, ensuring operator comfort and superior maneuverability in tight industrial spaces.

Performance

Power Source

Lithium-ion Battery

Lifting Capacity

2.5 t

Technical Specifications

Steering Enhancements

- Strengthened steering axle with high supporting point
- Increased bearing capacity
- Reduced steering pressure
- Lower steering energy consumption

Controller System

ZAPI

Controller Location

Balance weight

Design & Stability

Stability Design

- Tail-free structure
- Lower center of gravity
- Improved truck stability

Maintenance Benefits

Maintenance-free, Long life, High efficiency, Low heat balance temperature
