

26-inch Aluminum Frame Mountain Bike

This mountain bike has a 26-inch frame made of lightweight U6 aluminum. It features a ROCKSHOX front fork and a SHIMANO ST-M430 brake.

Overview

Built for Adventure

This 26-inch mountain bike is engineered for versatility and durability, making it an excellent choice for off-road adventures and recreational trail riding. It features a lightweight yet sturdy aluminum frame paired with a front suspension fork designed to absorb impact on uneven terrain. Equipped with high-traction knobby tires and reliable shifting components, this bike ensures a smooth and controlled ride across various surfaces.
