

26-inch Electric Powered Mountain Bike

This electric mountain bike is equipped with a high-speed motor for powerful performance. Its large-capacity battery provides extended range for long rides.

Overview

High-Performance Electric Mountain Bike

This 26-inch electric mountain bike is engineered for versatility and power, featuring a durable aluminum alloy frame and a high-efficiency brushless mid-drive motor. With a maximum speed of 32km/h and a reliable range of 50km, it offers an excellent balance of performance and endurance for various riding conditions. Equipped with front and rear disc brakes and a responsive Shimano drivetrain, this bike ensures safety and precision control on both paved roads and challenging terrain.

Performance & Power

Motor Specifications

250 W

Power Output

48 V

Voltage Options

Maximum Speed	32 km/h
Mileage per Charge	50 km

Technical Specifications

Battery Configuration

- 36V 17Ah Lithium Battery
- 48V 10.2Ah Lithium Battery

Frame Material	Aluminum alloy
Wheel Size	26 inch

Components

Control & Display

- LCD Display
- PAS Sensor Controller

Brake System	Front Disc Brake, Rear Disc Brake
Derailleur System	Shimano 6/7/8/9 speed
