

26-Inch Misting Fan with Wheeled Base

This 26-inch misting fan provides a cooling solution for various environments. The misting system enhances the cooling effect by releasing a fine spray of water into the airflow, and the fan is mounted on a sturdy stand with a water reservoir at the base and wheels for mobility.

Overview

High-Performance Misting Solution

This 26-inch misting fan offers an effective cooling solution for large, demanding environments. Combining a robust metal frame with efficient aluminum blades, it ensures both durability and powerful air circulation. The integrated misting system enhances cooling performance by dispersing a fine water spray, making it ideal for maintaining comfortable temperatures in hot conditions.

Technical Specifications

Fan Size	26 inches
Blade Material	Aluminum
Motor Type	Copper

Certifications

Compliance Certifications	CE, CB
