

26-inch Mountain Bike with Alloy Frame and 21-Speed Gears

This mountain bike is equipped with a durable alloy frame and a Shimano 21-speed drivetrain. It is designed for off-road adventures, providing smooth gear changes and confident braking.

Overview

Robust All-Terrain Performance

This 26-inch mountain bike is engineered for versatility and durability on varied terrains. Featuring a lightweight yet sturdy alloy frame and a suspension-equipped front fork, it provides excellent shock absorption for a smoother ride. With a reliable 21-speed gear system, riders can confidently tackle climbs and descents, making it an ideal choice for recreational off-road adventures.
