

26-Tooth Roller Sprocket for C2080/A2080 Chain

This roller sprocket is designed for use with C2080/A2080 chain, featuring a 2-inch pitch. It has 26 teeth and is suitable for various power transmission applications.

Product Overview

High-Performance Double Pitch Sprocket

This 26-tooth roller sprocket is precision-engineered for C2080 and A2080 double pitch chains with a 2-inch pitch. Designed for durability and smooth power transmission, it features hardened teeth to ensure long-lasting reliability and reduced wear in demanding industrial environments. Its robust construction makes it an ideal component for conveying systems, agricultural machinery, and various heavy-duty mechanical applications.

Technical Specifications

Number of Teeth	26
Pitch	2 in
Tooth Nominal Width	0.575 in
Hardened Teeth	Yes

Dimensions

Plain Bore	1.375 in
Max Bore	3.25 in
Hub Diameter	4.75 in
LTB (Length Through Bore)	1.875 in

Physical Properties

Sprocket Type	Type B
Weight	14.8 lb

Compatibility

Compatible Chains	C2080, A2080
