

26500 Cylindrical Lithium-Ion Battery Cell

This cylindrical lithium-ion battery cell is designed for a variety of power applications. It features a 2000mAh capacity and a nominal voltage of 3.7V for consistent power delivery.

Overview

High-Performance 26500 Lithium-Ion Cell

The 26500 cylindrical lithium-ion battery cell is engineered for consistent and reliable power delivery across a wide range of industrial and commercial applications. Featuring a capacity of 2000mAh and a nominal voltage of 3.7V, this cell provides stable energy output. Its robust design makes it a versatile choice for various power-dependent projects.

Technical Specifications

Standard Compliance

AEA1191

Nominal Voltage	3.7 V
Rated Capacity	2000 mAh
Model Number	TNL-26500SMC
Form Factor	26500 Cylindrical
