Product Overview

High-Performance Insulation Technology

This 26-liter insulated storage box utilizes advanced PU+VIP insulation materials to provide superior thermal retention for both hot and cold items. Designed with a sleek, durable plastic exterior, it is built to withstand rugged outdoor environments while maintaining a secure seal. Whether for camping, cold chain logistics, or medical transport, this unit offers a reliable solution for temperature-sensitive storage.

Technical Specifications

Capacity	26 L
Insulation Technology	PU Insulation, VIP Insulation
Construction Material	Durable Impact-Resistant Plastic

Key Features

Recommended Use Cases

- Camping and Exploration
- Van and RV Life
- Water Sports
- Outdoor Transportation
- Snow Sports
- Fishing
- Car Trunk Storage
- Fresh Food Cold Chain
- Medical Cold Chain
