Overview

Reliable Portable Power

This portable gasoline generator set is engineered for consistent, stable power delivery in various professional and field applications. Featuring an overhead valve (OHV) engine with automatic decompression and a stable transistor ignition system, it ensures easy starting and dependable performance. The unit is designed with safety and longevity in mind, incorporating automatic voltage regulation to protect sensitive equipment and an automatic oil alert system to prevent engine damage.

Power Performance

Engine Specifications

Engine Configuration

Feature	Specification
Model	168F
Type	Single cylinder, 4-Stroke
Displacement	163cc
Max Output	5.5 HP

Technical Specifications

Fuel Tank Capacity	15 L
Frequency	50 Hz
Noise Level (at 7m)	65 dB
Starting System	Recoil start, Key start

Physical Dimensions

Dimensions (LxWxH)	620 x 450 x 445 mm
Net Weight	38 kg

Key Features

Safety & Operational Features

- Automatic Voltage Regulator (AVR) for stable output
- Low oil level automatic shutdown
- Large patented silencer for noise reduction
- Easy-read fuel meter
- Automatic decompression device for easy starting
