

275mm HSS Circular Saw Blade

This high-speed steel circular saw blade is designed for cutting various materials. It has a diameter of 275mm, a thickness of 1.6mm, and a bore size of 32mm.

Product Overview

High-Performance Cutting Solution

This 275mm HSS circular saw blade is engineered for precision and durability in industrial cutting environments. Crafted from high-speed steel (HSS-DMo5), it offers excellent wear resistance and thermal stability for consistent performance. Designed for versatility, this blade is an essential component for demanding metalworking and fabrication applications.

Technical Specifications

Blade Diameter

275 mm
Diameter

Material Composition

HSS • DMo5

Blade Thickness

1.6 mm

Bore Size

32 mm

Usage

Suitable Applications

- Industrial metal cutting
- Fabrication shops
- Precision machining
