

27.5x2.25 Mountain Bike Tire with Torque Sensor and 36V Battery

This 27.5x2.25 tire is designed for mountain bikes and includes a torque sensor. It also features a 36V 14.5AH battery for electric-assisted cycling.

Product Overview

High-Performance Mountain E-Bike

This mountain bike is engineered for rugged terrain, featuring a robust aluminum alloy frame and an efficient air front fork for superior shock absorption. Equipped with a powerful brushless mid-hub motor and a high-capacity lithium battery, it offers a reliable range of over 60 km on a single charge. With premium components like Shimano 10-speed gears and hydraulic oil brakes, this bike ensures precise control and smooth shifting for professional off-road cycling.
