Overview

High-Performance 12V Alkaline Power

This 27A alkaline battery is engineered to deliver reliable and long-lasting power for compact electronic devices. Designed for consistent voltage output, it ensures optimal performance for critical applications such as remote controls, key fobs, and security systems. With robust manufacturing standards, this battery provides a dependable energy solution for professional and consumer use.

Technical Specifications

Common Applications

- Remote controls
- Security door remote controls
- Key fobs
- Lighters
- Car alarms

Battery Type	27A Alkaline
Nominal Voltage	12 V

Compliance & Standards

Certifications	ISO 9001, ISO 14001, SGS CE
