

27kV Outdoor Distribution Fuse Cutout

This outdoor expulsion drop-out fuse cutout is rated for 27kV. It protects power systems from overload and short-circuit failures.

Product Overview

Reliable Overcurrent Protection

This 27kV Outdoor Expulsion Drop-out Type Distribution Fuse Cutout is engineered to protect power systems from overload and short-circuit failures. Designed for durability in outdoor environments, it offers high breaking current capabilities and robust mechanical strength. It meets international IEC 600282-2 standards, ensuring consistent performance and safety for medium voltage distribution networks.

Technical Ratings

Rated Voltage

27 kV

Rated Voltage

Standards Compliance

IEC 600282-2

Key Features

Performance Features

- High over-current protection capability
- High breaking current performance
- High industrial frequency withstand voltage
- High mechanical strength

Logistics & Ordering

Shipping Ports	Ningbo, Shanghai
Payment Terms	T/T, L/C
Standard Delivery Time	35 days
