

2800W Portable Gasoline Generator with Electric Start

This gasoline generator delivers a rated output of 2800 watts at 220V and 50Hz. It can provide a peak output of 3000 watts for 10 seconds to start larger equipment.

Overview

Reliable Portable Power

This 2800W gasoline-powered generator is engineered for dependable performance in both residential and commercial settings. Equipped with an electric start system and a robust 214cc engine, it offers a stable power supply with advanced overload protection. The unit is designed for portability, featuring an integrated wheel kit and handle for easy transport across job sites or properties.

Performance Metrics

Rated Power Output

2800 W Rated Power	3000 W Max Power	68 dB(A) Noise Level
------------------------------	----------------------------	--------------------------------

Run Time

- 7 hours at rated load
- 11 hours at 1/2 load

Engine & Technical

Engine Specifications

Feature	Specification
Engine Model	GX210E
Displacement	214cc
Bore x Stroke	70 x 56mm
Starting System	Recoil / Electric
Fuel Tank Capacity	15 L

Electrical Output

AC Output	220V / 50Hz
DC Output	12V / 8.3A (100W)
