

280mm Multi-Purpose Saw Blade with 40 Teeth

This 280mm diameter saw blade is designed for multi-purpose sawing applications. It is precision-engineered to deliver clean and efficient cuts in a variety of materials.

Product Overview

High-Performance Multi-Purpose Saw Blade

This 280mm multi-purpose saw blade is precision-engineered for clean and efficient cutting across a variety of materials. Featuring 40 teeth, it is designed for demanding environments, including metal forming and shearing machinery. Its robust construction ensures consistent performance and durability for professional industrial applications.

Technical Specifications

Outside Diameter	280 mm
Number of Teeth	40
Inner Hole Diameter	50 mm

Available Variants

Specification Matrix

Order No.	Diameter (mm)	Kerf/Plate (mm)	Teeth	Hole (mm)
NF-10030Q	150	1.5/1.0	48	16
NF-11040Q	160	1.5/1.0	48	20
NF-11040Q	180	1.5/1.0	60	16
NF-11060Q	200	1.5/1.0	64	20
NF-11540Q	230	1.5/1.2	80	16
NF-11560Q	250	1.5/1.2	80	20
