

2.8kW Portable Gasoline Generator

This gasoline generator has a maximum output of 2.8kW. It is suitable for providing backup power or for use in locations without access to the electrical grid.

Overview

Portable Power Solution

This 2.8kW portable gasoline generator is engineered to provide reliable backup power for various applications, including remote locations or emergency situations. It features a robust design with integrated AC and DC outputs, along with a built-in voltmeter for real-time monitoring. Designed for ease of use and dependable performance, it is an ideal choice for off-grid power needs.

Performance

Maximum Power Output

2.8 kW

Max Output

Model Number

DK2.8GF-4

Features

Key Features

- Integrated Voltmeter
- AC Power Outlets
- DC Power Output
- Portable Design

Application

Backup Power, Off-Grid, Portable
