

28kW/35kW Diesel Generator Set

This diesel generator set delivers a continuous power output of 28kW and a standby power output of 35kW. It features a durable construction, advanced control systems, and efficient cooling.

Product Overview

Reliable Power Solution

This diesel generator set is a robust power solution engineered for diverse industrial and commercial applications. It is designed to deliver consistent performance through advanced control systems and efficient cooling mechanisms. With its heavy-duty construction, it serves as a dependable source for both backup and prime power needs.

Performance Metrics

Power Ratings

28 kW Continuous Power	35 kW Standby Power

Key Features

Standard Equipment

- Advanced control panel with comprehensive monitoring
- Heavy-duty base frame
- Integrated fuel tank for extended operation
- Efficient cooling system

Applications

Ideal For	Backup Power, Prime Power, Remote Site Applications
