

29-inch Electric Mountain Bike with Alloy Frame

This electric mountain bike has a 29-inch frame constructed from alloy. It is equipped with disc brakes and a Shimano 24-speed drivetrain.

Overview

Rugged Performance for Every Trail

This 29-inch electric mountain bike is engineered for versatility, seamlessly transitioning between off-road trail riding and urban commuting. Built on a robust ALU 6061 alloy frame, it features a reliable suspension fork and high-quality mechanical disc brakes to ensure safety and comfort on uneven terrain. Equipped with an efficient 24-speed drivetrain, this bicycle offers the perfect balance of durability and performance for professional riders.
