Overview

High-Performance Lithium-Ion Charging Solution

This C1200 series battery charger is engineered for reliable and efficient power delivery to lithium-ion battery packs. Featuring a robust aluminum alloy shell and a high power output of 735W, it is designed to handle demanding charging cycles for electric vehicles and industrial equipment. The unit includes essential safety certifications and versatile plug compatibility to meet diverse international requirements.

Technical Specifications

Output Performance

29.4 V

Output Voltage

25 A

Output Current

735 W

Output Power

Input Voltage 110-132VAC / 200-264VAC

Battery Compatibility Li-ion, 7S

Physical Characteristics

Dimensions 264 x 120 x 89 mm

Net Weight 2.1 KG

Housing Material Aluminium Alloy

Compliance and Support

Certifications

CE

Supported Applications

- Electric Bike
- Motorcycle
- Scooter
- Cleaner
- Golf Cart

Warranty Period

12 Months
