

# 29.4V 4A Lithium-Ion Battery Charger for E-bikes

This battery charger is designed for 7S lithium-ion battery packs, commonly used in e-bikes, motorcycles, and scooters. It provides an output of 29.4V at 4A and is certified with CE, ensuring compliance with European safety standards.

## ADDITIONAL IMAGES

## Product Overview

### Professional 7S Li-ion Battery Charger

This S120 series charger is a robust, high-performance power solution designed specifically for 7S Lithium-ion battery packs. Housed in a durable aluminium alloy shell, it provides efficient charging for electric bikes, scooters, motorcycles, and other personal mobility devices. Featuring active cooling and comprehensive safety protections, this charger is engineered for reliability and compliance with international standards.

## Technical Specifications

### Performance Metrics

**7 S**

Series Cells

**12 Months**

Warranty Period

Output Voltage	29.4 V
Output Current	4 A
Total Output Power	117.6 W
Input Voltage Range	110-132VAC, 200-264VAC

### Physical Attributes

Physical Dimensions	137 x 90 x 51 mm
Net Weight	0.8 kg
Case Material	Aluminium Alloy

## Safety & Compatibility

### Certifications

CE

### Compatible Applications

- Electric Bikes
- Electric Motorcycles
- Electric Scooters
- Cleaning Equipment
- Golf Carts
