Product Overview

Professional Li-ion Battery Charging Solution

The S120 battery charger is a robust, high-performance power solution specifically engineered for 7S Lithium-ion battery packs. Housed in a durable aluminium alloy shell, it provides a stable 29.4V 5A output, making it an ideal choice for a variety of electric transport and industrial applications. With its wide-range input voltage and integrated safety protections, it ensures reliable and safe charging across diverse global power environments.

Technical Specifications

Output Performance

29.4 V

Output Voltage

5 A

Output Current

147 W

Output Power

AC Input Range

- 110-132VAC
- 200-264VAC

Compatible Battery

7S Li-ion

Mechanical & Physical

Physical Specs

| Dimension | Value |
|-----------|------------------|
| Size | 137 * 90 * 51 mm |
| Weight | 0.8 kg |
| Housing | Aluminium Alloy |

Compliance & Safety

| | |
|------------------------|-----------|
| Quality Certifications | CE |
| Warranty Period | 12 Months |

Application

Primary Applications

E-Bike • Motorcycle • Scooter • Golf Cart • Cleaner
