Overview

Portable Power Solution

This portable gasoline generator is engineered for reliable power generation in diverse environments, from construction sites to emergency backup scenarios. It features a robust 4-stroke, air-cooled engine and a durable protective frame, ensuring consistent performance and longevity. With versatile AC and DC output options, it provides a dependable electrical source for tools, appliances, and electronic devices.

Electrical Specifications

Parameter	Specification
Rated Frequency	50 / 60 Hz
Rated Voltage	230 / 120 V
Phase	Single phase
Power Factor	1
DC Output	12V 8A

Engine Details

Engine Specifications

- Displacement: 163 cc
- Compression Ratio: 8.5:1
- Rated Power: 5.5 HP @ 3600 rpm
- Starting System: Recoil starter
- Rotation Direction: Clockwise (from flywheel)

Engine Configuration

Single cylinder, 4-stroke, Air-cooled, OHV, Gasoline

Physical Attributes

Size and Weight

- Dimensions (L x W x H): 570 x 455 x 475 mm
- Net Weight: 42 kg
- Gross Weight: 44 kg

Safety & Maintenance

Low oil alarm system • Overload protection • CE Certified
