

2kW Slim Tower Heater with Remote

This 2kW tower heater is designed with a slim profile and includes a remote control. It provides efficient warmth distribution and is suitable for various room sizes.

Overview

Efficient Heating Solution

This 2kW tower heater combines a space-saving slim profile with powerful heating performance, making it an ideal choice for both residential and office environments. Equipped with a remote control, it offers convenient, user-friendly operation for adjusting temperature settings and timer functions from a distance. Designed with safety in mind, the unit includes essential features such as overheat protection and a tip-over switch, ensuring reliable and secure operation.
