2V 1000Ah Gel Battery

This valve regulated sealed gel battery provides 2V and 1000Ah. It offers reliable energy storage and is designed for applications such as telecommunications and UPS.

Overview

Professional Grade Tubular Gel Energy Storage

This high-performance 2V 1000Ah tubular gel battery is engineered for reliability in demanding industrial and renewable energy environments. Featuring a sealed, maintenance-free construction, it offers long-term stability and high-capacity storage for critical backup power systems. Its advanced design ensures durability in solar, wind, and UPS applications with a long-service float life.

Technical Specifications

Nominal Voltage	2 V
Rated Capacity	1000 Ah
Designed Float Life	20 years

Key Features

Key Characteristics	Maintenance-free, Sealed Construction, High Reliability, Low Self-Discharge, Explosion-proof, Tubular Plate

Applications

Recommended Uses

- Solar Energy Systems
- Wind Energy Systems
- Telecommunication Systems
- Data Center UPS
- Power Generation Plants
- Financial Centers
