

## 2V 300Ah Sealed Lead-Acid Battery

This sealed VRLA battery has CE and UL approvals. It features a 2V300Ah capacity at a 10-hour discharge rate for long-lasting energy in diverse applications.

### Product Overview

#### High-Performance VRLA Energy Storage

This 2V 300Ah Sealed Lead-Acid (VRLA) battery is engineered for reliable, long-lasting power supply in professional applications. Designed with a 10-hour discharge rate, it ensures consistent energy delivery for critical systems. The unit adheres to rigorous international quality standards, making it a dependable choice for diverse industrial energy needs.

### Core Specifications

#### Rated Capacity

**300 Ah**
