Product Overview

Designed for efficiency, this unit can sharpen a drill bit in approximately 10 seconds.

Precision Drill Bit Sharpening

This industrial-grade drill bit sharpener is designed for rapid and accurate grinding of drill bits ranging from 3mm to 13mm. It utilizes a high-performance diamond grinding wheel to ensure long service life and consistent cutting angles. Featuring an electronically controlled DC motor, the unit provides stable frequency and powerful performance, making it an essential tool for maintaining drill bit quality and extending tool life in any workshop.

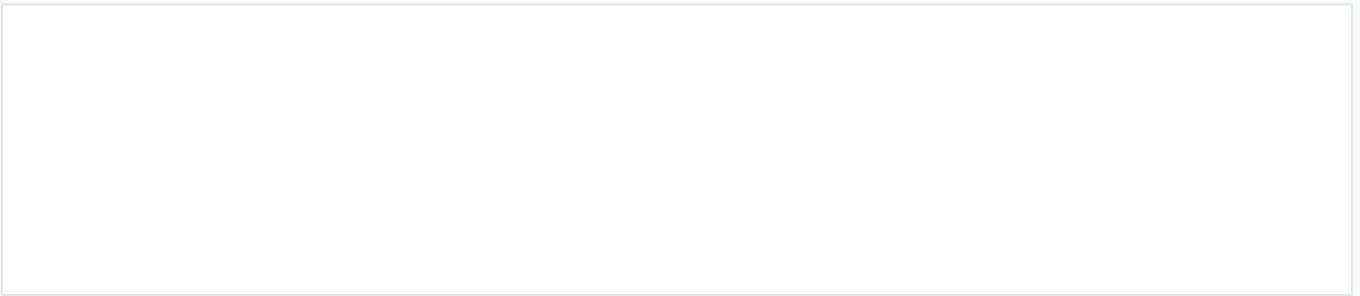

Technical Specifications

Detailed view of the grinding machine components, including the motor switch, collet, and angle adjustment controls.

Grinding Range	3-13mm
Point Angle	100-135°
Motor Power	120 W
Rotation Speed	4400 RPM
Power Supply	AC 220V
Grinding Wheel Type	CBN, SDC
Weight	10 kg
Dimensions	310 x 170 x 180mm

Included Accessories

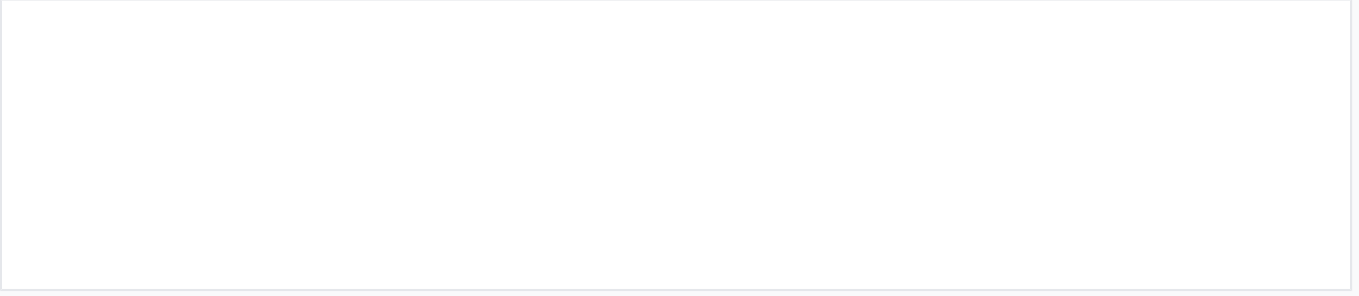

The grinding wheel is easily replaceable using the included standard wrench.

Standard Accessories

- 11x ER High elastic collets
- 1x Diamond grinding wheel
- 1x 13-type 2-blade chuck set
- 1x Allen wrench
- 1x User's guide

Performance Features

User-friendly grinding seat allows for precise 180-degree rotation to complete the sharpening process in one operation.

Key Capabilities

Fast 10-second grinding • Adjustable point angle • Easy operation • Replaceable wheel • Compact design
